Vendor Neutral - Trainer Profile – Ronald van Kleunen
CWNE #108, CWNP #307052, CISM #1117595, CISSP #99801,
GIAC #1395658 (GCIH, GMOB), BICSI #237560, CSOEP #100600,
ITIL #819214, IRCA 20000 ITSMS / 27001 ISMS #01193718

Certifications:

- CISM #1117595
- CISSP #99801
- GIAC #125778 / #1395658 (GCIH #19169, GMOB #609)
- CWNE #108
- CWNP #307052 (CWNT, Wireless#, CWTS, CWNA, CWSP, CWAP, CWDP)
- ITIL version 2 and ITIL version 3 #819214
- CSOEP (Data Center + Infrastructure + Process + Security + Management) #100600
- IRCA - ISO/IEC 20000:2005 ITSMS (#1 in Singapore 07/08)
- IRCA - ISO/IEC 27001-1:2005 ISMS (#14 in Singapore 07/08)
- Member: BICSI #237560, ISACA #697166, itSMF SG, TH

Wireless

Ronald van Kleunen is the CEO and founder of Globberon Pte Ltd, based in Singapore. He manages the daily business operation and provides certification training services in APAC, EMEA, USA since 2003. He has 20 years of experience in designing IT/Service & Network Infrastructures, IT/Network Services and IT/Network Operations, including Security, Data Center, Management and Process Management, ranging from Government, Enterprise to Small and Medium (SMB) level addressing scalability, security and IT Service Management. His current focus is on wireless service standardization & security in different domains like wireless (Wi-Fi) design, analysis and security and works with global organizations like: ITU (International Telecommunication Union), BICSI (Building Industry Consulting Services International).

Furthermore, he regularly a speaker at international events:

- 2017 June – DataCloud Monaco, Europe – Wireless Service Availability in the DataCenter for DataCenter Operations
- 2017 May – CommunicAsia, Singapore – Why is “Security of Things” needed? (Smart Nation, IoT, Best Practices)
- 2017 Apr – BICSI Middle East & Africa (MEA), Dubai - How difficult can it be to install a large Wi-Fi network?
- 2017 Apr – BICSI Middle East & Africa (MEA), Dubai - Latest Wireless Deployment Trends for Smart Cities
- 2017 Apr – Wi-Fi evening Seminar in Singapore (Wi-Fi Design and Security)
- 2017 Mar – Wireless Certification training in Petaling Jaya, Malaysia
- 2017 Mar – BICSI South Pacific: Auckland, New Zealand – Wi-Fi Security Workshop
- 2017 Mar – Wireless Certification training in Auckland, New Zealand (Admin, Security, Analysis)
- 2017 Feb – Wireless Certification training in Utrecht/Breda, The Netherlands (Admin, Security, Analysis)
- 2017 Feb – Wireless Certification training in Belgium (Admin)
- 2017 Feb – Wireless LAN Professionals Conference (WLPC), Phoenix, USA
- 2017 Jan – BICSI USA, Winter Conference – Who is designing your wireless network? Cabling or Wireless Designer
- 2016 Dec – Wireless Certification training in Melbourne, Australia (Admin)
- 2016 Nov – BICSI Philippines, Manila - The need for Wireless Standardization, Certification, Accreditation & Wireless Service, Security Management + Auditing
- 2016 Nov – BICSI South East Asia (SEA), Bangkok, Thailand - Security and Performance in Nation-wide Broadband Networks
- 2016 Nov – Wireless Certification training in Breda, The Netherlands (Wi-Fi Admin)
- 2016 Oct – Wireless LAN Professional Conference (WLPC), Budapest, Hungary
- 2016 Sep – Wireless Certification training in Helsinki, Finland (Wi-Fi Admin)
- 2016 Sep – BICSI South Pacific: Auckland, Wellington, Christchurch Wi-Fi seminars, New Zealand
- 2016 May – ITU (International Telecommunications Union) – Wireless and IPv6 Security
- 2016 May – BICSI South Pacific, Sydney, Australia – Wireless Standardization
- 2016 Sep – Wireless Certification training in Helsinki, Finland (Wi-Fi Admin)
- 2016 Apr – BICSI Middle East, Dubai, United Arab Emirates (UAE) – Wireless Standardization
- 2016 Feb – WLPC (Wireless LAN Professional Conference), Phoenix, USA. Wi-Fi Security certification training (Certified Wireless Security Professional) and Ten Talk about Wireless Standardization
- 2015 Apr-May – ITU (International Telecommunications Union) – International Training Program APAC – Wireless Security & Cyber Security policies for governments.
- 2015 Oct – WLPC Europe (Wireless LAN Professional Conference), Berlin, Germany. Wi-Fi Security certification training (Certified Wireless Security Professional) and Ten Talk about Wireless Career Path
- 2015 – BICSI Conference, Las Vegas, USA – The Need for Wireless Standardization Certification, Accreditation & Wireless Service, Security Management and Auditing Wireless Standardization
- 2015 – Wi-Fi Trek Conference, San Francisco, USA - Current & Future Needs for Wi-Fi Services, Performance and Security
- 2014 - ITU (International Telecommunications Union)/IMPACT/Globberon – Wireless Security practices for Government regulators and policy makers in APAC/EMEA
